Geography/GIS graduate; seeking position requiring GIS, Python, data analysis and automation, and related experience.

RELEVANT EXPERIENCE:

TRC Companies/WSP Global

Montreal, QC

GIS Intern

June - August 2026 | 40 hours/week

- Spearheaded an automated and Python-based ArcGIS script that collected, integrated, and displayed CIM-related properties of different projects in an external Excel spreadsheet
- Wrote robust documentation for users and further developers of the script that I developed, including technical specifications, a step-by-step guide, and future points of implementation
- Virtually attended the 2026 Esri User Conference, where I learned about new and existing ArcGIS tools, applications, and functionality in different industries
- Pursued certifications in FME and specialized knowledge of tools within the platform through trainings and practice activities with FME Academy
- Exposed to utility and engineering GIS platforms like the ArcGIS Utility Network and GE SmallWorld
- Contributed to presentations as a leading intern

GIS Intern

May - August 2025 | 40 hours/week

- Helped create and study the advantages of AI-enhanced feature datasets beneficial for a new conflation workflow
- Wrote a marketing document overviewing the advantages of the new and automated conflation workflow over traditional conflation methods
- Attended a comprehensive workshop on the functionality and applications of ArcGIS Survey123
- Pursued certifications in FME and ArcGIS Pro and data-driven opportunities, such as doing trainings with FME Academy and compiling dam data for a dam safety group
- Exposed to utility and engineering GIS platforms like the ArcGIS Utility Network and GE SmallWorld
- Elected as the intern team lead for a collaborative study of the benefits and drawbacks of entry into the carbon capture and storage market
- Contributed to presentations and promotional materials as a leading intern

Family Forest Research Center, UMass Amherst

Amherst, MA

Research Assistant (Data Categorization/Management)

June - August 2024 | 33 hours/week

- Classified forest data from thousands of aerial images for the National Woodland Owner Survey
- Helped conduct QA/QC on mailing addresses for thousands of American landowners

Department of Earth, Geographic, and Climate Sciences, UMass Amherst

Amherst, MA

Teaching Assistant (GIS)

September - December 2023, 2024 | 4 hours/week

- Collaborated with TAs and the instructor to introduce ArcGIS concepts, materials, and functions
- Assisted over 40 students with varying levels of GIS experience in key skills and practices
- Developed knowledge of best security practices in file management and data organization

Stockbridge School of Agriculture, UMass Amherst

Amherst, MA

Research Assistant (GIS)

June 2023 - May 2024 | 5 hours/week

- Studied spatial and temporal patterns in grape species through map and data visualizations
- Developed spatial methodologies and leveraged quantitative geoprocessing tools to analyze species responses to seasonal and weather patterns

SKILLS:

ArcGIS Pro/Online/Survey123/ModelBuilder/StoryMaps SQL Python Technical Documentation Data Collection/Analysis/Management/Visualization/Automation GIS Databases Microsoft Office

EDUCATION:

University of Massachusetts Amherst

Amherst, MA

BA in Geography

September 2026

Certificate in Geographic Information Science & Technology

September 2026

GPA: **3.91**

Relevant Coursework: GIS Programming, GIS and Spatial Analysis, WebGIS, Computer Mapping, Field Methods in Geography, Remote Sensing, GeoComputation, Environmental Geography and Sustainability, Global Environment Change, Writing in Geography, Statistics, Spanish, Urban Issues

CERTIFICATIONS, LICENSES & HONORS:

Esri Academy Certifications: GIS Basics, ArcGIS Pro Basics, Editing Basics in ArcGIS Pro, ArcGIS Notebooks Basics, Introduction to Distance Analysis, Basics of JavaScript Web Apps, Creating a Map Layout, Map Design Fundamentals

FME Academy Certifications: FME Form Intermediate, Integrate Data with the FME Platform, Integrate Spatial Data
